Canon EF 70-300mm f/4-5.6 IS II USM Lens:

A powerful and affordable addition to your standard kit lens, this high-quality zoom will expand your photography and improve image quality from greater distances. Ideal for outdoor sports and wildlife photography, the EF 70-300mm f/4-5.6 IS II USM has a maximum 300 mm telephoto focal length, helping you get closer to your subject and fill your frame. The 9-bladed circular aperture helps separate your subject from its surroundings and create beautiful bokeh, whilst Nano USM technology focuses on your subject quickly and quietly.
