

## AXIS T94P01L

For indoor and outdoor recessed mounting

AXIS T94P01L Recessed Mount enables sleek, elegant and discreet recessed ceiling installations together with AXIS M5525-E PTZ Network Camera. It is suitable for air-handling spaces in indoor installations as the back box is made of metal and has a 3/4" (M25) hole for protected cable-runs in conduits. When the camera is attached to the recessed mount it is embedded into the ceiling, revealing only the camera dome and the low-profile cover ring, which is easily repaintable.

- > **For recessed installations in drop ceilings and soffit**
- > **Indoor and outdoor use**
- > **Quick and easy installation**

## AXIS T94P01L
