Stylish Outlook

New ID design with carbon fiber look name plate delivers the modern look-and-feel in the closet. Choose a right L3 switch for your network

High Availability

The XGS4600 Series comes with Gigabit connectivity and four integrated 10-Gigabit SFP+ slots that enable high-speed uplink connections for affordable, reliable network elements.

Stacking Capability

The XGS4600-32/32F allows creating a physical stack through one or two 10-Gigabit SFP+ slots. XGS4600 series features dynamic routing to simplify cross-subnet communications for businesses such as hospitality venues and education institutions that operate complex networks.

High Resiliency

The XGS4600 Series is designed to support active-standby power redundancy to trigger backup power supply to take over in case the main power supply fails.
