datAshur® personal 2

Easy to use and affordable USB 3.0 Flash Drive

Designed for everyday use, the iStorage datAshur Personal^2® secure flash drive, employing PIN access with hardware encryption.

The datAshur Personal^2 provides peace of mind over the security of sensitive data at an affordable price. Using PIN access with military grade XTS-AES 256-bit hardware encryption, the datAshur Personal^2 offers complete data security and guarantees 100% protection.

The datAshur Personal^2 secures data you don't want others to see, from family photos to files of a more sensitive nature, so you will never have to worry about your personal or company files falling into the wrong hands!

The datAshur Personal^2 incorporates a rechargeable battery allowing the user to enter a 7-15 digit PIN onto the on-board keypad before connecting the drive to a USB port. All data transferred to datAshur Personal^2 is encrypted in real-time with the built in hardware encryption engine and is protected from unauthorised access even if the datAshur Personal^2 is lost or stolen.

The datAshur Personal^2 automatically locks when unplugged from the host computer or power to the USB port is turned off, operates straight out of the box and does not require any software or drivers to be installed.

- ✓ Drive reset destroys data and recovers use of drive
- ✓ Wear Resistant Key Pad
- ✓ Tamper evident
- ✓ Immune to BadUSB
- ✓ Capacities of 8, 16, 32 & 64GB

Why choose the datAshur Personal^2?

Did you know that millions of external data storage devices are lost or stolen every year and this figure is rising. Have you ever considered the impact of losing your non-encrypted USB device? Your data would be at the mercy of anyone who stumbles across it. Loss of confidential data can have a devastating effect on both businesses and consumers. It could lead to a hefty fine, the downfall of a business, embarrassment, job losses and adverse media attention.

General Data Protection Regulation (GDPR)

There's not long to go before GDPR becomes law in May 2018, businesses and organisations will need to comply or face fines of up to 4% of their annual global turnover or €20,000,000 whichever is greater!
The forthcoming legislation compels anyone who holds data on EU Citizens to implement adequate security measures to protect data from loss or theft.

The iStorage datAshur Personal^2 will protect you against all of this.
