

Elite SE880 External Solid State Drive

## POWERFULLY COMPACT

### Elite SE880 External SSD

The Elite SE880 is made for productivity on the go. It supports USB 3.2 Gen2 x2 for fast transmissions, is equipped with a Type-C port, and delivers performance of up to 2000MB/s. This is all packed into a compact form factor with a volume of just 28cc, which is smaller than an AirPods case. These attributes make it perfect for productivity and creativity on the go.

#### Speed Ahead with USB 3.2 Gen2 x2

The Elite SE880 supports USB 3.2 Gen2 x2, capable of reaching transmission speeds of 20Gb/s. This is twice as fast as USB 3.2 Gen 2x1 and 4 times faster than USB 3.2 Gen 1x1.

#### Fast 2000MB/s Read Performance

The Elite SE880 is capable of reaching read/write speeds of up to 2000MB/s, which is roughly 20 times faster than ordinary external hard drives, which only reach about 100MB/s. This allows you to directly perform intensive task right on the SE880, whether is A/V editing or other applications.

\* For optimal performance, the host device must support USB 3.2 Gen 2 and UASP drivers. Actual performance will vary depending on the host device's hardware and software configurations.

\*\* This is an internal test result based on a comparison with ADATA external HDDs. The PCs used in the test support USB 3.2 Gen 2 and have a UASP driver installed. Actual speeds may vary depending on host device's hardware and software configurations.
