

ThinkPad T14 Gen 1 (AMD)

Lightweight design with MIL-SPEC tested durability, a battery that can last up to 14 hours and reliable security features make this 14" business laptop ideal for mobile use. Business professionals can count on the new AMD Ryzen PRO processors, integrated AMD Radeon Vega graphics and ultra-fast SSD storage for responsive performance even when multitasking. 2x USB 3.2 and 2x USB-C Gen 2 connectors ensure support for a wide range of peripherals.

Experience uninterrupted productivity with features like Modern Standby that allows the device to receive important updates even with the lid closed and resume from standby in an instant. The optional 4G WWAN module enables reliable connectivity when Wi-Fi is weak or unavailable.

AMD Memory Guard enables real-time encryption and decryption of the device's memory to prevent information like security keys from falling into the wrong hands. At the touch of a button, optional PrivacyGuard technology can render the display unreadable to shoulder surfers.

Minimal preloaded applications mean maximum battery life and responsiveness for users, and faster deployment for IT admins.

Lenovo devices that are a class apart

The ultimate productivity notebook, ThinkPad T Series will keep users productive all day with long battery life, docking and enhanced connectivity options, security and manageability features.
