

**MAINSTREAM COMPUTING FOR A  
VARIETY OF BUSINESS USES**

The ThinkCentre M9 Series offers more expansion and performance capabilities than any other desktop in our portfolio; perfect for users who need higher computing performance than average.

## ThinkCentre M90s

Smarter  
technology  
for all

Lenovo

This compact desktop supports a variety of needs - from basic to power users; connect up to 3 displays at 4K resolution, and configure with 2x M.2 SSD drives and 2x SATA HDDs. Optional graphics, 128GB memory capacity and 3x PCIe expansion slots provide scope for future upgrades. New on this model are additional security features, modern standby and an intelligent cooling system that reduces fan noise and boosts performance.

### REASONS TO BUY

Security features include a self-healing BIOS which can restore itself in the event of a BIOS update failure or if maliciously attacked. The BIOS-controlled optional Chassis eLock prevents unauthorized removal of components, by locking from the inside. A wide range of I/O ports include USB-C, USB3.1, a serial port and optional parallel port.

With Modern Standby this desktop will keep emails and applications up to date with the latest data even when asleep, wake more quickly and consume less energy.

Optimized to reduce power consumption with Energy Star 8.0 and EPEAT Silver energy efficiency certifications.
