20W USB Type C GaN Charger

Compact charger with GaN, PD 3.0 and PPS technologies

| DESCRIPTION

- Charges and powers a device via one USB Type C port
- 20W GaN technology provides fast charging for smartphones, tablets, laptops and other mobile devices
- Compact design and lightweight for maximum mobility
- Built-in safety features such as overvoltage and overcurrent protection
- 2 year warranty

The Lindy 20W USB Type C PD Charger is a compact, efficient solution for charging many devices. It provides fast charging for USB Type C PD and PPS-enabled devices. Thanks to the small design the charger can easily be carried and is always available when power is needed.

Featuring a single Type C female USB port this charger is ideal for use with most popular smartphones and iOS devices. Supporting power delivery of 20W, connected devices can be provided with faster charging than what is possible from a standard Type C charger supplied with many devices.

For safe charging the device includes overcharge, overcurrent, overtemperature and short circuit protection.
