Clarity Max Touch 32" 4K Touchscreen

Your Favourite Canvas Just Got Bigger

Clarity Max Touch offers the same bright, vivid and true-to-life colours as our widely-lauded 27" original – but with a new 32" screen that makes a much bigger impression. Max Touch's 8MP webcam ensures you're always looking your best while its USB hub helps declutter your studio, leaving your focus for what truly matters: your next masterpiece.

4K UHD Display

The Next Big Thing in Creativity

With HDR400 support and a 3000:1 contrast ratio, Clarity Max delivers crisp contrasts between its deep blacks and eye-catching brightness. Offering more than 16 million colours across their 4K Ultra High Resolution displays, Clarity Max monitors are the perfect place to realise your next masterpiece.

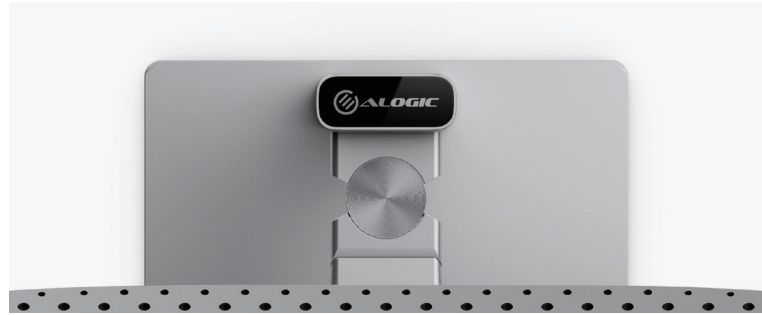

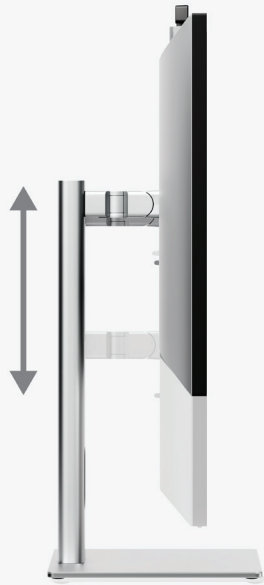

More Space For What Matters

The big plays look bigger. Movies hit harder. Games draw you in deeper. Great art stretches out before you. Whatever you're into, it just looks better in 32" on Clarity Max.

Power, Data & Video in a Single Cable

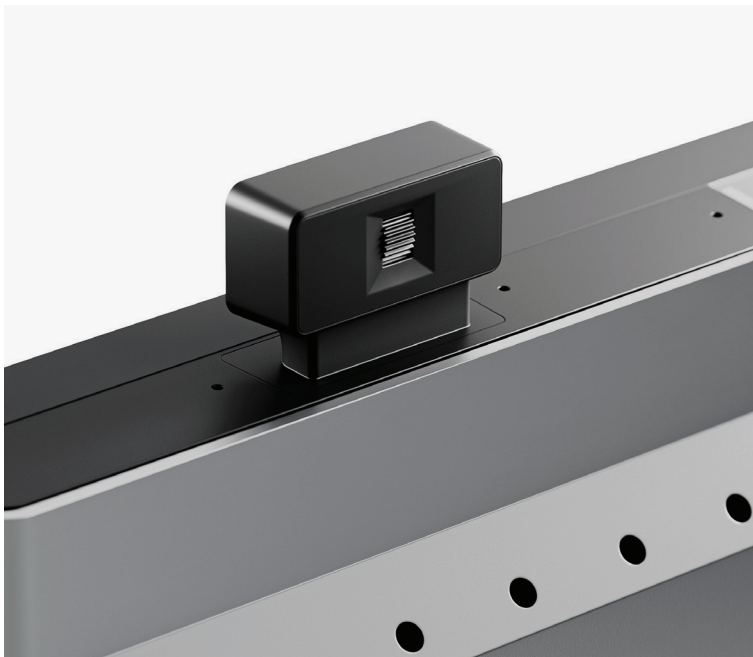

Clarity Max Touch's rear USB hub connects your computer to two USB-A accessories, 65W laptop charging and your 3.5mm speakers or headphones – all with the same USB-C cable you're using for video.

Pivot, Tilt, Swivel

Adjustable stand

Our aluminium stand makes it easy to position Clarity Max exactly where you need it, letting you raise, pivot, tilt and swivel the display to fit your desk setup and maximise ergonomic comfort.

8MP Smart Webcam

Look stunning, but only when you want to with our smart webcam. It automatically sides up when you need it and disappears when you don't, protecting your privacy. Adjusting your framing is easy with its rear dial, perfect for multi-user workstations.

Unrivalled 4K Touchscreen

With 32" of high-resolution touch, Clarity Max Touch delivers a desktop navigation experience unlike any other. Pinch, swipe and sketch away on a screen almost three times the size of the average iPad™, using your hands or a MPP 2.0 stylus.

8 Port Mini Hub
