

# High speeds to satisfy your needs

## USB 3.1 Gen 1 Card Reader

RDF5

USB 3.1 Gen 1 interface

USB Type-A connector

Functions as a USB flash drive

## Versatile card reader for SD and microSD cards

Featuring double card slots for both your SD and microSD memory cards, the RDF5 handles most of your daily needs for transferring data between your cameras, phones, and PCs.

Note: The reader does not support simultaneous insertion of SD and microSD cards.

## Standard USB Type-A connector

Transcend's RDF5 card reader comes with a standard USB Type-A connector. Besides using it as a card reader, you can also use it as a USB flash drive on any desktop or laptop computers. Simply plug it in directly to the USB port of the computer.

## Higher speeds, higher efficiency

Equipped with the USB 3.1 Gen 1 interface, the RDF5 card reader shows amazing transfer speeds, much faster than what you'd get with USB 2.0!

Not only will the RDF5 handle your high-resolution images and videos with ease, but it also has an LED indicator to show card insertion and data transfer activity.

## Compact power

The RDF5 card reader is small enough to slip into your pocket or briefcase for superior convenience. With its plug-and-play functionality, you can transfer your most important files between the RDF5 and your computer anywhere, anytime.

## RecoverRx software

Transcend offers the RecoverRx software, a free data recovery utility that allows you to search deep within a storage device for traces of erased files including digital photos, documents, music, and videos.
