Packaging

- Composed by :
- 1 screen protector
 - 1 cleaning kit : 1 anti-dust adhesive + 1 cleaning pad + 1 microfiber fabric + 1 smoothing card

Finition Clear

- 99% transparency

Finition Matte

- Anti-fingerprints
- Anti-glare

Finition Blue Light Cut

- Eyes protection against Blue Light and reduce eye strain and dry eyes

Finition Privacy

- 180° Privacy filter

PROTECTION NORM

The IK standard defines the protection degree against external mechanical shocks. It is normed according to NF EN 62262 (NF C 20-015). The IK06 grade announces a resistance to a 1 joule impact energy (equivalent to the fall of a 250gr body from a height of 40cm).

BUBBLE FREE

These protections are really easy to set with their bubble free technology which avoid the unpleasant and difficult moment of applying the screen protector. If any small bubbles appear during the set-up, they will automatically disappear within 24h.

ELECTROSTATIC ABSORPTION

The static load facilitates dust and dirt adherence on all kinds of screens. It disorder your use and reduce the lifetime of your devices. Electrostatic absorption technology eliminates static disagreements.

HARDNESS ANTI-SCRATCH

9H is the hardest grade (behind diamond which is 10H) on a scale defining the resistance to touch, pressure, shear, chafing and shock. Therefore, 9H is the best protection degree that exists for screens.

ANTI-GLARE

The anti-glare power prevents the sun and lights reflection on screens, allowing users to check their devices in very luminous place without be constrained by light glints.

ANTI-FINGERPRINTS

Even with regular cleaning, the fingerprints and the runs of fingers slips are always apparent on your smartphones and tablets touchscreens. Thanks to the anti-fingerprints effect, a matte finish prevents you against these unpleasantness.

OLEOPHOBIC

Don't be afraid any more of coffee drip, food spot or dust traces. With their matte finish, the anti-stain screen protectors don't let any mark stain your screen.

BLUE LIGHT CUT FINISH

The Blue Light attacks your eyes during all day : computers, tablets, smartphones, TV... The Blue Light Cut Filter keep your eyes safe from bad eyestrain.

PRIVACY FILTER

With his 60° clear visibility, the privacy filter protects you against curious or prying eyes.

PRIVACY FILTER

With Privacy filters MOBILIS, check you sensitive data where you want.

MOBILIS Privacy filters use a microshutter technology which only allows the person in front of the screen viewing displayed data. People on each side only see black. The essential protection accessory which allows working in full safety whether in public places, by train, by plane... or like in the office or with a team !

Protect effectively your datas from prying eyes.

- Compatible with laptops and LCD Screens
- Compatible with touchscreen
- 2 mount systems to adapt to your constraints
- Repositionable, easily removable for team work
- Available from 12,1" to 24"
- Not fixed to the screen, provided with brackets
