C2G 83373 networking cable Grey 15 m Cat6 U/UTP (UTP):

For fast Ethernet and Gigabit computer networks that require bandwidth-intensive voice, data, or video distribution applications. Meets all Cat6 TIA/EIA standards, and drastically reduces both impedance and structural return loss (SRL). Each of the individual pairs is bonded together to help maintain the twist-spacing throughout the line right up to the termination point. Constructed from high quality copper cable, this design minimises Near-End Crosstalk (NEXT) levels. The moulded, snagless boot prevents unwanted cable snags during installation and provides extra strain relief. Available in a variety of colours to easily colour-code your network installation. Each cable is individually labelled with the length for ease of use.
