

12VHPWR 16-PIN 600W CABLE

Designed for Antec

Signature Series

12VHPWR POWER CABLE FOR PCI-E 5.0 GRAPHICS CARDS

Specially made for our Antec Signature Power Supplies. Adopting an Installation-Friendly design for the exquisite cases without using the original 12+4Pin GPU cable or an adapter.

PROVIDE UP TO 600 WATTS

Providing up to 600 watts to meet the power requirements of RTX 40 series Graphics Cards along with our Signature Power Supplies.

Our 12VHPWR PSU Power Cable requires connection of 2 x 8Pin PCIe slots on the power supply.

* To learn more about the details, please contact the local distributors.
