

Micro HDMI to DVI Adapter - Micro HDMI to DVI Converter - Micro HDMI Type-D Device to DVI-D Single Link Monitor/Display/Projector - Durable - Male/Female - 8in (20cm) Cable

Product ID: HDDDVIMF8IN

Need to connect your Micro HDMI equipped phone or laptop to a DVI-D digital display? This 8 in. Micro HDMI to DVI adapter provides the perfect solution.

Connect your Micro HDMI laptop or mobile device to a DVI-digital monitor or projector. Simply plug any male-to-male DVI-D cable, such as our 3ft DVI-D single-link cable (DVIMM3) from the display into the adapter and connect the adapter to your device.

Perfect for use in a boardroom, your home office or when travelling for work, you can be ready to present wherever you are.

Need a way to include audio in your presentations? You can use our 1m 3.5mm audio cable (MU3MMS).

Reduce stress and prevent damage on the device port. This 8-inch cable extends the device port away from your computer, which helps prevent damage by reducing strain on the port as well as the connectors. Plus, it doesn't block other open ports, leaving them open for connecting your other devices.

The adapter fits nicely inside your laptop bag, backpack or other carrying case, making it the perfect mobile accessory to keep in your carry-on baggage. Arrive prepared when you're presenting to a potential client, teaching offsite, or travelling to a customer location.

The HDDDVIMF8IN Micro HDMI to DVI adapter is backed by StarTech.com's lifetime warranty.

Certifications, Reports and Compatibility

Applications

- Connect your HDMI Micro equipped mobile device such as your phone, laptop, or tablet to a DVI-D display or

projector
