# TYPE-C MULTI-PORT ADAPTER V2
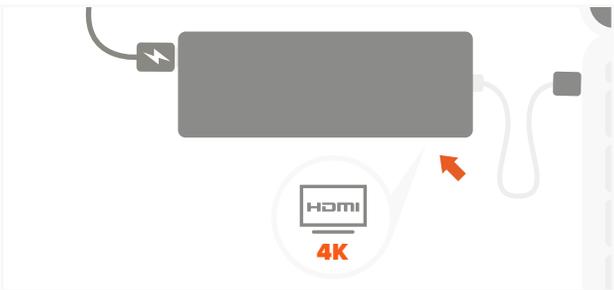

1 Connect the Type-C Multi-Port Adapter V2 to Type-C port of your Macbook. Compatible with 2016/2017 MacBook and 2016/2017 MacBook Pro.
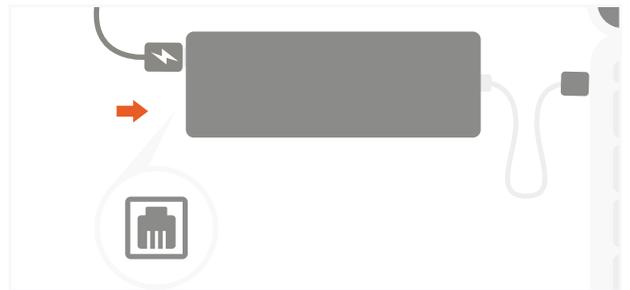

2 Connect native Macbook charger to pass through port to charge your Macbook.
Blue LED indicates that Adapter is powered.

3 Connect external monitor to HDMI port of the Adapter with HDMI Cable.
HDMI port requires a direct HDMI to HDMI connection. Not recommended with VGA/DVI monitors.

4 Connect Ethernet Cable to Ethernet Port.

5 Connect USB HDD/SSD/Thumb or any USB Device to USB Type-A ports.
Not compatible with Apple SuperDrive.

6 Charge phones through USB ports of the Adapter using native charging cables.

7 Attach either Micro SD or SD Card to appropriate slot of the Adapter.

NOTE: OPERATING TEMPERATURE IS 86-122°F
