BOOMPODS®

## soundflare
The sustainably made party speaker

But how is this possible? I mean, this was plastic waste!

Yes. But when it comes to the most common used materials we're collecting, for instance PET bottles, this waste already had food grade during its first lifecycle. After collecting it, our local teams are washing and sorting the plastic which is then shredded into flakes. After this step, the innovative technology we have developed with the Swiss University of Applied Sciences OST, takes over: We transform these flakes into pellets in a pure mechanical process, neither chemicals nor virgin plastics are being added. We use the latest technology and apply physical methods (vacuum, decompression, degassing, melting) to transform waste and extend the molecular chains of these wasted polymers. The result is a strong, clean and reliable material.

MADE FROM OCEAN MATERIAL
#tide OCEAN MATERIAL

The recycled ocean plastic used to make this product may have traces of the wide mix of types of plastics collected, this can allow some minor black spots and imperfections to appear upon the surface. These are normal and do not affect the performance of the product. The material is unique in character and happy not to be in the Sea.

How to Connect

Switch ON: LED will flash,
Choose "soundflare" from your device menu,
Wait until you hear voice prompt "Connected",
You are now connected.

light modes

(MFB)
To select from basic light modes.
OR
Download the free Boompods App and choose from countless light options:

Charge

LED will blink red while charging then turn green when fully charged, after 3 minutes LED will switch off to save power.

To check Buds battery status at any time you can open the Boompods App.

ℹ

Product Name	soundflare
Type	Water resistant Bluetooth speaker
Compatibility	Devices with Bluetooth 5 or lower
Warranty	12 months
IPX Rating	IPX 6
Features	Waterproof , Light modes, App Volume, Skip Track, Dual pairing
Play Time	5H
Cables	USB-C to USB-A
Battery	700mah
Charge time	2.5h
frequency range	2.4-2.480 GHZ
Sensitivity	–42±3dB, omni-directional, S.N.R≥60dB
Mic frequency range	20hz-20khz
Working Current	≤ 30mA (minimum volume)
Working Voltage	DC 3-4.2 V
Speaker	3W waterproof high quality driver.
Bluetooth	V5.3

The Declaration of Conformity can be found at:
https://www.boompods.com/product/soundflareHereby, Boompods declares that the radio equipment type [Speaker with Bluetooth] is in compliance with Directive 2014/53/EU.FCC ID: RDR-BH20T13A
