#### Main USPs

- In-line volume and muting control on a stereo USB headset designed for focus and performance

#### Product promise

No min. or no max. characters

The PC 8 USB is a meticulously designed headset that puts control at your fingertips. Perfect for new ways of working, remote learning or simply staying in touch with friends and family, an in-line control lets you adjust volume and mute sound on device, minimizing interruption to on-screen tasks. At the same time, the stereo ear-pieces absorb you in quality audio, letting you focus on clear communication without distraction from your surroundings.

The USB lets you connect easily and quickly to PC and Mac®, while a unidirectional passive noise-canceling microphone filters out background clatter while keeping your voice clear. The PC 8 USB is also comfortable, durable, and lightweight, having been engineered to survive the rigors of daily use.

All of that comes in a package that offers high-quality audio at an excellent value.

#### Headset with in-line control

The PC 8 USB stereo headset for PC and Mac® gives you control and focus for online calls, whether you are working, studying remotely, or simply staying in touch. An in-line control lets you adjust volume and muting on-device, minimizing interruption to on-screen tasks. Meanwhile, the stereo ear-piece design limits distractions from your immediate surroundings, letting you focus on what matters.

EPOS' powerful, refined processing technology assures optimal audio quality, and a unidirectional noise-canceling microphone cuts away background clatter, so that what you say is always clear. The headset's lightweight, durable construction

## PRODUCT DESCRIPTION

### PC 8 USB Stereo Headset

#### **In-line volume and mute control**

A small controller positioned on the headset's USB cable puts control over volume and muting at your fingertips, minimizing interruption to on-screen tasks. Free yourself from struggling to adjust your computer's settings while simultaneously trying to focus on the conversation at hand.

#### **Unidirectional microphone**

The PC 8 USB features a unidirectional passive noise-canceling microphone that reduces background clatter from your immediate surroundings. Speak with the confidence that your words will be communicated clearly, so that accuracy and understanding define your online conversations.

#### **USB connector**

A reliable, familiar USB lets you connect the PC 8 USB to both PC and Mac® simply and efficiently. Instead of struggling with technological complexity, you can get straight on with having meaningful, productive online meetings that put clarity of communication first.

#### **Designed for comfort and durability**

Through considered design, careful selection of materials and a meticulous manufacturing process, the PC 8 USB is comfortable, lightweight, and made to survive daily use. Whether sitting down to a busy day of meetings or hopping on a quick call, the PC 8 USB's is built with you in mind.
