Docking Station + Power Delivery 100W

PRODUCT DESCRIPTION

A powerful professional docking station that supports output to up to three external monitors in up to 4K high resolution. The dock can be used with virtually any laptop as it supports connection to all common ports: USB 3.0, USB-C and Thunderbolt 3/4, while supporting all common current operating systems. **However, connection to three monitors will only be possible if the laptop has a Thunderbolt 3/4 port or a USB-C port that supports video transfer (USB-C DP Alt mode).**

Plenty of USB ports (including those that support speeds of up to 10 Gbps), reliable and fast connection to the corporate network thanks to the integrated LAN port and support for installation behind the monitor all make this docking station the ideal companion for true professionals.
